INSIGHTS FROM SUPERMARKET ANALYSIS

What drives the most sales?
The most sales comes from food and beverages section but most customers purchased Fashion accessories
Most sales come from members more than normal
Giza branch has the most sales

Underperforming areas?
Health and beauty has the least sales

Gender/customer- type behavior differences?

Females purchase way higher than males in all categories except Health and Beauty where males that purchased that category where 4 more than the females so the gender that has most total sales is the female so advertisement regarding fashion accessories, sport and travel, in should target female audiences since they are more likely to purchase goods,
advertisement in Health and beauty should target both male and female audiences.

Month with highest/lowest sales and why?
January highest sale
February lowest sale

Other insights
Napyitaw city (Giza branch) has more sales in food and beverages more than any other category
Yangon city(Alex branch) has the most sales in home and lifestyle more than other categories
Three modes of payments are utilised to the full so each store must maintain these modes of payment
